

KAYLEIGH MARTIN

ABOUT

I am a versatile cybersecurity professional with over 7 years of experience across various technical roles, currently specializing in malware analysis and security implementation for one of the leading website security companies. In my role, I focus on identifying vulnerabilities, eradicating malware, and recommending system improvements. My expertise spans malware investigation, server troubleshooting, and CMS platform management. With a strong foundation in Governance, Risk, and Compliance (GRC) principles from my cybersecurity studies, I am equipped to support risk assessments, implement controls, and promote security awareness across organizations.
